

## GenAir High Pressure Desiccant Dryer

GenAir's desiccant dryers offer cutting edge technology working to  $-70^{\circ}\text{C}$  PDP (Pressure dew point), covering a wide range of flows and pressures up to 25barg.

Our high pressure desiccant dryer rental fleet includes units dedicated to oil free applications. These oil free air units have never been run with oil injected air compressors which, along with our rigorous cleaning and maintenance schedule, ensures that we have dryers suitable for any application from blasting situations where the air needs to be dry to food or pharmaceutical production which requires the air to not only be dry but absolutely clean.

Watch our video for the dryer [here](#)

### Technical Data

Max. Working Pressure	25barg (365psi)
Max. Free Air Delivery	56m <sup>3</sup> /min (1989cfm)
Pressure Dew Point	$-40^{\circ}\text{C}$ ( $-70^{\circ}\text{C}$ on request)
Type	Heatless Desiccant
Max. Inlet Temperature	Up to $32^{\circ}\text{C}$
Filtration down	to 0,01 $\mu$
Length	2840mm
Width	1880mm
Height	2120mm
Weight	3200kg

To experience GenAir for yourself please call 0121 505 2134 or visit us at [www.genair.co.uk](http://www.genair.co.uk) to discuss your needs.

With depots in the West Midlands, Uxbridge and Broxburn, our nationwide coverage ensures you get what you need, fast.
